* All occurrences of abuse and neglect (CAN) are included here. Each child may have one or more types of abuse and neglect in each report and one child may have been reported more than once. So the sum of the CAN types exceeds the total duplicated count of children.

**Unduplicated Abuse and Neglect (CAN) Types count each type of abuse and neglect once per child, regardless of how many times each type has been reported for the child. Each child may have one or more types of abuse in the report year. So the sum of the CAN types exceeds the total number of children.
