## **2015 Hawaii Child Care Market Rate Study**

---

### **INTRODUCTION**

The purpose of this study is to examine current market rates for child care in Hawaii. Federal regulations 45 CFR Parts 98.43(b)(2) and 98.16 require that the Hawaii's Department of Human Services (DHS) complete a biennial child care market rate study as part of Hawaii's state plan for expenditure of federal Child Care Development Fund (CCDF) monies.

Information about current child care rates is used to determine subsidy payment rates which ensure equal access to child care. This would equate to access to child care which is comparable to child care received by and paid for by families who are ineligible for subsidies. The sole purpose of this study is to examine current market rate conditions for child care in Hawaii. The subsidy payment rate setting process will be completed at a later date.

### **METHODOLOGY**

#### **HAWAII'S CHILD CARE RESOURCE AND REFERRAL AGENCY**

PATCH (People Attentive to Children) is Hawaii's child care resource and referral (CCR&R) agency. Through a contractual agreement with DHS, PATCH provides child care referral services to the public and maintains rate and other information about child care providers in the community. PATCH is a member of the National Association of Child Care Resource and Referral Agencies (NACCRRRA), a national network of more than 600 child care resource and referral agencies across the United States.

PATCH maintains CCR&R information in a proprietary NACCRRRA data system. Annually, PATCH surveys child care providers in Hawaii and updates information maintained in this system. Providers can complete the survey in hard-copy or electronic format. The survey process includes follow-up contact with providers who have not completed the survey by the deadline date or, have submitted surveys but clarification is needed for incomplete information.

PATCH completed the survey process and a data extract was created from the NACCRRRA system in July 2015 and provided to DHS' Audit, Quality Control and Research Office - Research Staff. Using SAS statistical software, child care rate data was analyzed and summary reports were created.

## SURVEY PARTICIPATION

There were a total of 1,004 child care providers listed in the data extract. Of these providers, 334 were excluded from this study for the following reasons. Providers affiliated with Head Start, Kamehameha Schools (private preschool) and local hotels/resorts were excluded from the analysis of survey data. Although these providers may have completed a survey, they were not included in this study of market rates since they would not offer child care to the general public. Also excluded were providers licensed for before/after school child care but only offered this care to students who already were attending the school or facility during the regular school day. Other reasons that providers were excluded from this study:

- inactive/closed provider status,
- rate information that was missing,
- rate information that related to part-time, not full-time care, and
- missing capacity information.

After these exclusions, 670 surveyed providers were included in the final analysis. A total of 3,327 rates from these providers were used in the study.

Total Providers in Data Extract	Number of Providers Excluded	Total Providers Included in Study	Number of Rates From Providers Included in Study
1,004	334	670	3,327

## DATA ELEMENTS

### License Type

Providers with the following license types were included in child care rate analysis: a) Licensed Before/After School Program, b) Licensed Family Home, c) Licensed Group Home, d) Licensed Infant/Toddler Center, and e) Licensed Preschool.

### Full-time Monthly Rates

Only full-time monthly rates were analyzed. Monthly rate data that was zero or missing, or rate data that could not be associated with an age group range were excluded from the analysis. Additionally, rates were excluded if it was clearly indicated in the survey comments section that the rate listed as a full-time monthly rate was instead for a time period other than monthly (e.g. for an entire school year or for a summer school session). There was no conversion of longer-term rates to monthly rates.

### Age Group

Full-time monthly rates were associated with the following age ranges: a) 0 to 36 weeks, b) 37 to 52 weeks, c) 1 to 2 years, d) 2 to 3 years, e) 3 to 4 years, f) 4 to 5 years, g) 5 to 10 years, and h) 11 to 15 years. If age range information was missing, the corresponding monthly rate was excluded from analysis.

In some cases, multiple rates were listed for the same age group range. The higher of the rates was selected for that age range.

### Accreditation

For the purposes of this study, a child care provider was considered to be accredited if it possessed National Association for the Education of Young Children (NAEYC) or National Early Childhood Program Accreditation (NECPA) designation.

### Island and Zip Code

Rate information is presented as follows: a) Statewide, b) by island, and c) by county - Maui County is comprised of the islands of Maui, Molokai, and Lanai; Hawaii County is comprised of West and East sections of the island of Hawaii.

Child care market rate information is also shown by urban and rural classifications. For this study, urban was defined as providers with a zip code prefix of 968xx; this zip code prefix is assigned to Honolulu metropolitan areas. All other zip codes were classified as rural (zip codes with prefix 967xx).

## TYPE OF CARE

Based on the license types and age group ranges described above, child care rates were segregated into the following types of care: a) Center Based Infant/Toddler Care, b) NAEYC or NECPA Accredited Center Based Care, c) Licensed Center Based or Group Child Care Home, d) Licensed Family Child Care Home - Infant/Toddler Care, e) Licensed Family Child Care Home, and f) Licensed Before School Care/After School Care.

The following tables report child care market rate data by type of care groupings described above. Listed are figures for the number of providers, number of rates associated with these providers and summary statistical rate information: mean, median, minimum rate, maximum rate and 75% quantile. It is suggested by CCDF that as a benchmark, rates established at least at the 75<sup>th</sup> percentile “would be regarded as providing equal access”.<sup>1</sup>

## WEIGHTING OF DATA

Full-time monthly rates were weighted by total desired capacity of each provider. The desired capacity rather than licensed capacity was used because individual providers do not always chose to enroll the maximum number of children they are licensed to serve.

For providers with missing desired capacity information, licensed capacity was used. A provider's rate data was excluded from the analysis if both desired and licensed capacity were missing.

## SUMMARY OF FINDINGS

This study examined current child care market rates in Hawaii. Monthly rate data was analyzed from a total of 670 child care providers. This data was obtained through surveys administered by the local CCR&R agency during the first half of 2015.

Results showed that child care market rates are higher for younger children and center-based care, and rates are lower for family child care. It is preferable to examine child care rates by statewide, county, or urban/rural classifications rather than by island because limited rate information was available for some of the islands.

## FOOTNOTES

- <sup>1</sup> The (arithmetic) mean is computed as the sum of all rates in a population divided by the number of elements in the population.  
*Source: SAS statistical software documentation.*
- <sup>2</sup> The sample median is the midpoint of the data; the point below and above which 50 percent of the values fall.
- <sup>3</sup> The "75% Quantile" is the value below which 75% of the rates fall and 25% of the rates are above that value.

A footnote in the publication *Market Rate Study Guidebook - A Guide to Implementing a Child Care Market Rate Study Using Child Care Resource & Referral Data*; Grobe et al., September 2003, states "The preamble to the CCDF Final Rule suggests as a benchmark that rates established at least at the 75th percentile 'would be regarded as providing equal access'."

**Survey Instrument**

April, 2015

Aloha,

PATCH is required by the Department of Human Services (DHS) to maintain a database of all licensed child care providers for statistical purposes, even those not wanting to be referred to families. By keeping your information up-to-date, PATCH is able to provide DHS and lawmakers with accurate statistical information which is used for policy and funding decisions. These decisions impact you as a child care professional.

PATCH may have recently requested your business information for our quarterly update, however, we ask you to please complete all of your information for this 2015 Annual Survey (included here is a brief description of each survey field to help you understand the data we are trying to maintain):

- Part 1 of the survey is a Provider Profile for Referrals page. Use this page to list current details about your child care business, so that our referral system will reflect accurate information.
- Part 2 lets you choose whether or not you would like PATCH to refer you to families and if you accept children receiving DHS subsidies. This section contains extra questions related to the child care you provide and to whom.
- Part 3 asks for business information, including details of your shifts, rates, and types of care offered.
- Part 4 includes additional program information and Registry information.

After completing all parts of the survey, please ensure to sign and date the last page.

**Complete and promptly return the Annual Survey to PATCH by April 30, 2015.** The PDF is not “savable” unless you have Adobe capabilities (you can download Adobe at <http://www.adobe.com/products/reader.html>). Without PDF capabilities you must print out the completed form and mail it back to us or scan it & email it back to us. If you have questions regarding this survey please feel free to call your local PATCH office.

Each day you have a lasting impact on the lives of Hawaii’s young children and their families. Today, parents are increasingly reliant on child care to enable them to go to work so they can support their families. In addition, high quality early childhood education programs are critical in determining a child’s early development by helping to build a solid foundation for school and success in life. Thank you for all that you do each day for Hawaii’s children!

## Field Descriptions

**Contact Information** – this area provides your basic information.

**Primary Phone** – this is the number families can call

**Email** – email address where we can email to you important information.

**Total Desired Capacity** – total number of children you will accept (this number should not be more than your licensed capacity but can be smaller if you accept less than what you are licensed for)

**Ages Served** – the age range of the children you accept under this license type. The age range should fall within the age range stated on your license.

**Additional Fees** – indicates whether you charge additional fees (such as Extended Day, Late Pick-Up Fees, Registration Fees, Separate Meal Fees, Late Payment Fees, Activity Fees, etc.). The amount charged for each type of additional fee is not required. Please feel free to attach a separate sheet if you have multiple fees.

**Days** – these are the days and times you are normally open for business

**Care Available** – this identifies whether you accept children

- On a full-time or part-time basis
- On a full year (Jan –Dec), school year, or summer only basis

**Rates** – if you don't want us to publish your rates it will ask parents to call you for the rates. However, when we periodically call you to update your information we are required by DHS to ask for your rates.

- If you have different rates for different ages, please indicate the rates for each age group.
- Please feel free to attach a separate sheet if you have multiple rates.

**Curriculum** – regular or particular programming designed for specific ages.

**Respite** – temporary/short term care of children with special needs to provide relief to the primary caregiver.

**Meals** – these are the meals that you provide to the children. They do not include meals furnished by parents. It also indicates whether you participate in the USDA Child Care Food Program.

**Accreditation** – if your operation has been accredited by such organizations such as the National Association of Family Child Care (NAFCC), the National Association of the Education of Young Children (NAEYC), the Western Association of Schools and Colleges (WASC), etc. If you have not done so already, please furnish us a copy of your most recent certificate.

**C.A.N.O.E.S. Registry** –if you are employed in a Group Child Care Center you are required by DHS to be registered in the C.A.N.O.E.S. Registry. PATCH is the administrator of this program.
