Introduction

This report was prepared by the Audit, Quality Control and Research Office of the State of Hawaii Department of Human Services. A copy of this report is also available on the Department's website at <http://humanservices.hawaii.gov/ssd/home/child-welfare-services/child-abuse-and-neglect-reports/>.

The Hawaii Revised Statutes (HRS) Chapter 350 defines child abuse and neglect and assigns the Department of Human Service to receive and investigate reports of child abuse and neglect and to maintain a central registry of reported child abuse and neglect cases.

The CPSS database system serves as the Department's central registry. All data presented in this statistical report come from the CPSS.

The Department also participates in the National Child Abuse and Neglect Data System (NCANDS), a federally sponsored effort that collects data on child abuse and neglect known to child protective services agencies in the United States. The mandate for NCANDS is based on the 1988 amendments to the Child Abuse Prevention and Treatment Act (CAPTA) which directed the Secretary of the U.S. Department of Health and Human Services to create a national data collection and analysis program for state-level child abuse and neglect information. Data presented in this statistical report was produced in a manner consistent with NCANDS reporting. However, there is a difference in reporting periods. The reporting period for NCANDS is the federal fiscal year running from October through September. This report summarizes by calendar year.

In this report, data from 1999 and before were based on report date, data from 2000 and after were based on disposition date.

Glossary

Child abuse or neglect	(HRS §350-1) The acts or omissions of any person who, or legal entity which, is in any manner or degree related to the child, is residing with the child, or is otherwise responsible for the child's care, that have resulted in the physical or psychological health or welfare of the child, who is under the age of eighteen, to be harmed, or to be subject to any reasonably foreseeable, substantial risk of being harmed.
Child victim	Victim of a report of child abuse or neglect where at least one maltreatment type was confirmed.
Children reported	Children identified in an intake as alleged victims of child abuse or neglect.
Confirmed	A determination made by the Department that evidence was sufficient under state law to conclude that maltreatment occurred.
County	The county in which the child was residing at the time of the report of maltreatment. Maui County includes Kalawao.
Disposition	A determination made by the Department that evidence is or is not sufficient under state law to conclude that maltreatment occurred. A disposition is applied to each alleged maltreatment in a report and to the report itself.
District	A sub-county geographical area.
Duplicate count	A count where a person is counted for each response or occurrence in situations where a person may have more than one response recorded (e.g., factors precipitating the incident) and/or more than one occurrence (e.g., multiple intakes within the year).
Factors precipitating the incident	Conditions that were identified as contributing to the abuse or neglect of the child.
HRS	Hawaii Revised Statutes. Numbers after § refer to chapter and section number. Entire HRS available for viewing at http://capitol.hawaii.gov/docs/HRS.htm .
Intakes	Reports of child abuse or neglect incidents that have been accepted for investigation. An intake usually refers to a family unit and may involve the possible maltreatment of more than one child.

Intake: Reports accepted for investigation. A report may include more than one alleged victim and therefore the count of children will be greater than the count of reports. A report's disposition is counted as confirmed if at least one child was confirmed as being maltreated.

Duplicated count: A child is counted each time that he/she was indicated to be a victim. A child may be found to be an alleged victim in more than one report during the year and therefore counted more than once during the reporting period. A child is counted as confirmed each time he/she is confirmed as a victim in a report.

Unique count: A child is counted only once during the reporting period, regardless of how many times the child was reported. A child is counted as confirmed only once regardless of how many times he/she was confirmed. A child is counted as not confirmed only if found not confirmed in all reports.
