

DAVID Y. IGE  
GOVERNOR

PANKAJ BHANOT  
DIRECTOR

CATHY BETTS  
DEPUTY DIRECTOR

STATE OF HAWAII  
DEPARTMENT OF HUMAN SERVICES

P. O. Box 339  
Honolulu, Hawaii 96809-0339

December 24, 2018

The Honorable Ronald D. Kouchi  
President and Members of the Senate  
Thirtieth State Legislature  
State Capitol, Room 409  
Honolulu, Hawaii 96813

The Honorable Scott Saiki  
Speaker and Members of the House  
of Representatives  
Thirtieth State Legislature  
State Capitol, Room 431  
Honolulu, Hawaii 96813

SUBJECT: REPORT IN ACCORDANCE WITH THE PROVISIONS OF SECTION 346-59.9, HAWAII  
REVISED STATUTES, ON PSYCHOTROPIC MEDICATION

Dear President Kouchi, Speaker Saiki, and members of the Legislature,

Attached is the following report submitted in accordance with:

- SECTION 346-59.9, HAWAII REVISED STATUTES, ON PSYCHOTROPIC MEDICATION.

In accordance with section 93-16, HRS, copies of these reports have been transmitted to the  
Legislative Reference Bureau Library and the reports may be viewed electronically at  
<http://humanservices.hawaii.gov/reports/legislative-reports/>.

Sincerely,

Pankaj Bhanot  
Director

Homelessness

**REPORT TO THE THIRTIETH HAWAII STATE LEGISLATURE  
2019**

**IN ACCORDANCE WITH THE PROVISIONS OF  
SECTION 346-59.9, HAWAII REVISED STATUTES,  
ON PSYCHOTROPIC MEDICATION**

**DEPARTMENT OF HUMAN SERVICES  
MED-QUEST DIVISION  
DECEMBER 2018**

**2018 ANNUAL REPORT ON PSYCHOTROPIC MEDICATION,  
SECTION 346-59.9, HAWAII REVISED STATUTES**

Act 102, Session Laws of Hawaii (SLH) 2012, amended section 346-59.9, Hawaii Revised Statutes (HRS), Psychotropic Medication. Section 346-59.9 (g), requires the Department of Human Services to report annually on:

- (1) The number of brand-name and generic prescriptions written to which this section applies; and
- (2) The amount expended on brand-name prescriptions and the amount expended on generic prescriptions written each fiscal year to which this section applies.

The information is provided in the tables below. The data is as reported by each QUEST Integration (QI) health plan, the Community Care Services (CCS) contractor and the Fee-For-Service (FFS) program.

**Hawaii Medicaid Psychotropic Cost for State Fiscal Year (SFY) 2018**

Includes QI Health Plans, CCS and FFS

\*Change from last year's reported data is due to health plan's correction of data.

The total expenditure for psychotropic medication in SFY 2018 is approximately \$27,811,000. This total includes the QI health plans (\$15,510,000), CCS (\$12,300,000) program and the FFS program (\$1,073).

## Discussion

This State Fiscal Year (SFY) 2017-2018 report utilizes the term “QUEST Integration” (QI) to reflect the Medicaid managed care health plans for SFY 2018. The data is as reported by each QI health plan, Community Care Services (CCS) contractor and Fee for Service (FFS) program.

Previously, Act 205, SLH 2010<sup>1</sup>, effective July 1, 2011, was implemented by the health plans during different quarters in State Fiscal Year (SFY) 2010-2011<sup>2</sup>. SFY 2011-2012, SFY 2012-2013 and SFY 2013-2014 each are a full year of all the plans complying with Act 205 (2010) without changes in the law or the program. Trends are noted. Data for SFY 2009-2010, prior to the implementation of Act 205 (2010) is represented for comparison purposes.

Three of the five Medicaid managed care plans had data updates. The following are noted:

- 97% of the antidepressant prescriptions are filled with a generic and account for 62% of the antidepressant expenditure. SFY 2018 generic utilization and expenditure percentages were consistent with updated data for SFY 2017 generics. One generic antidepressant medication was available at the end of 2016. Since 2015, no new brand antidepressant has been approved by the Food and Drug Administration (FDA).
- Nearly 100% of the anti-anxiety prescriptions are filled with a generic and account for 82% of the anti-anxiety expenditure. SFY 2018 generic utilization and expenditure percentages were consistent for updated data for SFY 2017. The expenditure is minor when compared to the antidepressant and antipsychotic prescriptions.
- 81% of the antipsychotic prescriptions are filled with a generic. SFY 2018 generic utilization percentage was consistent with updated data for SFY 2017, while the expenditure is significantly decreased by 14 percentage points. One generic antipsychotic was available at the end of 2016. The utilization of brand prescriptions increased by 1 percentage point in SFY 2018 over updated data for SFY 2017, while the expenditure increased by 14 percentage points. More high cost, brand injectables were paid while generic costs have decreased as competition from multiple manufacturers is driving down the price.

---

<sup>1</sup> Access to brand medication is available after two generic failures are documented for antidepressant and anti-anxiety medications.

<sup>2</sup> Different approaches and combinations were initiated by the different plans during SFY 2010-2011, such as the following: Preferred Drug Lists/Formulary Coverage; Prospective DUR edits; Point-Of-Sale messaging; Step Therapy; Prior Authorization; Provider Education; and Call Center intervention.
