# Report to the Thirty-First Hawaii State Legislature 2021

In Accordance with Senate Resolution 11 (2020)

DEPARTMENT OF HUMAN SERVICES  
MED-QUEST DIVISION  
December 2020

This report is made in accordance with Senate Resolution 11 (SR11) (2020) requesting that the Department of Human Services (DHS) provide an estimate of the budget appropriation and legislative action necessary to fund an expansion of Med-QUEST coverage to all otherwise eligible post—partum women in the State for a period of twelve months following childbirth.

Testimony provided by DHS during the 2020 legislative session on the SB 2429, which proposed implementing a program of similar intent as SR 11, noted that the estimated budget needed would be approximately \$3.2 million state-only funds. The program would extend Medicaid coverage to post-partum women who were enrolled in Medicaid during their pregnancy for 12 months after birth. DHS research indicates that Centers for Medicare and Medicaid Services (CMS) has not approved other states' requests for twelve-month post-partum coverage, therefore, all expenditures would be state funded only with no federal Medicaid match.

Given the State's current fiscal situation due to the COVID-19 pandemic and the changing federal landscape, we think it is premature to make a legislative proposal at this time.
